

# Design and size heated and cold water services and systems

## Course Code:

CPCPWT4011B

## Program category:

Short Course General

This unit of competency specifies the outcomes required to design, size and document the layout of heated, tempered and cold water services, flushing systems, hydrant and hose reel systems for multi-floor buildings. It covers preparation for work, identification of water service and system requirements, planning the service and system layout and completion of work finalisation processes.

### Eligibility for funding
